Unesco

Providing lightweight automated connectivity to SWIFT

Your Challenges

- Limited knowledge on SWIFT connectivity
- Implement automated connectivity between SAP and SWIFT
- Avoid any changes at the level of SAP

Our Solution

- Implementation of Lite2 for own SWIFT Connectivity
- Implementation of File Based connectivity using Converter (customised for different banks)
- Customised pdf reporting to replicate reports previously received

Your Benefits

- Short implementation cycle
- Low footprint solution
- Project fully managed remotely
- Comprehensive Integration platform which can be leveraged for other requirements
